

Erratum. Health Outcomes of Physical Activity Interventions in Adults With Down Syndrome: A Systematic Review

TO OUR READERS: An error appeared in the ahead-of-print version of the following article:

Ballenger, B.K., Schultz, E.E., Dale, M., Fernhall, B., Motl, R.W., & Agiovlasitis, S. Health outcomes of physical activity interventions in adults with Down syndrome: A systematic review [published online February 1, 2023]. *Adapted Physical Activity Quarterly*. <https://doi.org/10.1123/apaq.2022-0102>

In Table 1 Section (a), the quality score for Carmeli et al. (2002) was listed as .00, whereas it is 1.00. In addition, the departmental affiliation for the authors at Mississippi State University (Brantley K. Ballenger, Emma E. Schultz, Melody Dale, and Stamatis Agiovlasitis) was incorrectly stated as the Department of Kinesiology, even though they are not all with that department at the university. The article was corrected February 14, 2023. We apologize for the error.
