

Erratum. Effects of Different Inertial Measurement Unit Sensor-to-Segment Calibrations on Clinical 3-Dimensional Humerothoracic Joint Angles Estimation

TO OUR READERS: A change was made to the following article after its initial publication online:

Bonfiglio A, Farella E, Tacconi D, Bongers RM. Effects of different inertial measurement unit sensor-to-segment calibrations on clinical 3-dimensional humerothoracic joint angles estimation. *J Appl Biomech*. Published online November 18, 2024. <https://doi.org/10.1123/jab.2023-0276>

After this article was published ahead of print in the *Journal of Applied Biomechanics*, the authors obtained a CC BY-NC open-access license, and the article was republished online as open access with the corrected copyright notice on January 6, 2025.
