Erratum. Reconstructing, Challenging, and Negotiating Sex/Gender in Sport: U.S. Public Opinion About Transgender Athletes’ Rights, Rights for Athletes With Varied Sex Characteristics, Sex Testing, and Gender Segregation

TO OUR READERS: An error appeared in the ahead-of-print version of the following article:

The weighted descriptive results for U.S. adults’ support for transgender athletes’ rights were incorrectly reported. The unweighted results were accidently supplied. The weighted results should state that 55% of U.S. adults appear to somewhat or strongly agree; 34% seem to somewhat or strongly disagree (11% DK). The correct estimates were used to produce Figure 1. The article was corrected September 22, 2023.
