Is my JSR manuscript prepared correctly and ready for submission?

1. Have I filled out, signed, and dated the copyright transfer form?

2. Does my manuscript meet the required word limit (excluding the abstract, references, tables, and figure legends):
   a. Original Research articles: 4,000 words
   b. Reviews/Meta-analyses: 4,000 words
   c. Critically Appraised Topics: ??? not listed
   d. Case Studies: 2,500 words
   e. Technical Reports: 2,500 words

3. Is my manuscript styled in accordance with the AMA Manual of Style (10th ed.)? In particular, are the references and citations in AMA style?

4. Did I include line and page numbers in my manuscript?

5. Did I blind my manuscript, removing any reference to authors or institutions in the body and acknowledgments of the article? Did I also remove any registered trial identification numbers, including those instead in the separate title page?

6. Did I include the abstract with the main document and is it fewer than 300 words?

7. Did I include in-text call-outs for each table or figure? Does each table have a descriptive title and each figure a descriptive legend?

8. Did I write a separate cover letter that explains why my submission is a good fit for JSR? Does my cover letter also include a statement that this submission has not been previously published (except in abstract form), is not presently under consideration by another journal, and will not be submitted to another journal before a final editorial decision from JSR is rendered?

9. Do I have a separate title page that lists all authors and affiliations in the order they should appear in the author byline? Did I also include the corresponding author’s email address? Did I mention any sources of funding and conflicts of interest?
